Spring 1   Home Learning

To be completed and brought into school on the week of Monday 10th February 2025

Home Learning Task	For this term's home learning, we would like to give you a task related to our science topic. Draw a local habitat or make a diorama of one. Teachers will go over what this is in class.
What to do	Your chosen work needs to be a drawing or diorama of a local area. This could be the heath, the beach, a harbour, a river etc. It would be fantastic if your home learning was made from recycled materials from your household! Below are some ideas. You have chance show it your and answer questions. will the to to class
Success Criteria	**To make something that...** • Is related to a local habitat. • Includes labels. • If possible, is made out of recycled materials. • Includes animals and plants that are in the area. • You can tell your classmates about!
